

Bhargavi Chella

UI Developer/Front-End Developer

Enthusiastic Front-End Developer skilled in React.js, Next.js, and modern UI/UX design. Adept at creating responsive, visually appealing web applications with a focus on user experience and performance. Passionate about translating design concepts into seamless, high-performance user experiences. Eager to bring creativity and technical skills to dynamic projects and collaborative teams.

Experience

2023 - Present

Lex Nimble Sol. Private Ltd., Hyderabad

React JS Developer

- Leveraged **React JS** and **Next.js** to develop dynamic and responsive user interface components for the **StacX Platform**, enhancing efficiency and scalability.
- Key contributor to StacX Platform, **CM5** (Content Management System), **VM1** (Volunteer Management System), and **TX9** (POS & Transaction Management System), elevating user experience with intuitive UI design and seamless integration with secure authentication, role-based access, and API integrations.
- Crafted visually appealing UI elements using Tailwind CSS and Material-UI, contributing to a polished front-end experience.

2024 June- Present

Geeks For Geeks

Freelance Content writer

- Authored over 10+ technical articles on web development and programming topics.
- Engaged with the developer community by sharing articles and insights on social media platforms like LinkedIn and Instagram.
- Continued to produce new articles and content, enhancing the learning experience for readers and followers.

Projects

• Web Content Management System 🌐 (Group Project)

stacX is a cloud-based technology platform offered as a SaaS solution, streamlining organizational processes through a comprehensive suite of modular applications

Features:

- Users/Admin Management with various access controls & social login
- Ability for teams to Create & Update web page from scratch
- Instant web page updates
- Flexible Posts on webpage with visibility & expiry configurations
- Categorize, Search & Filter various pages maintaining good history

Areas of Responsibility:

- Developed dynamic and scalable UI components using React JS and Next.js, enhancing the efficiency of web applications.
- Implemented secure authentication using NextAuth and Keycloak, ensuring user access control.

Tech Stack: React JS | Next JS | Material UI | Key Cloak | AWS | Next Auth | Cypress | Git
